

# GARDEN PUMP

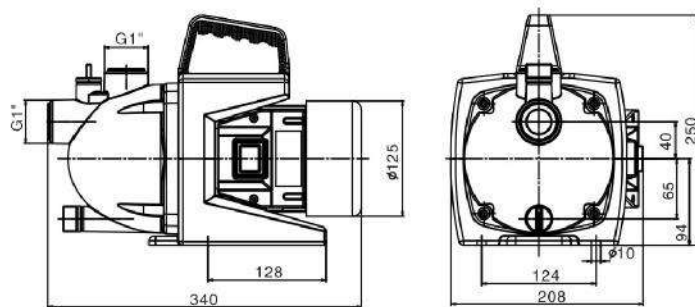

## FEATURES

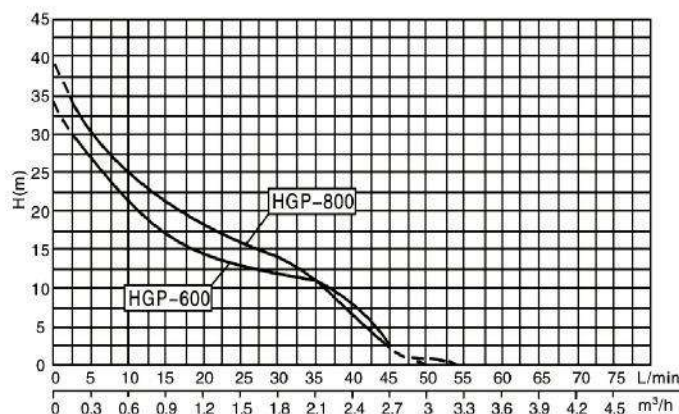

The motor is asynchronous motor, the shell is cast aluminum alloy, and the pump adopts the unique structure of centrifugal impeller, radial guide vane and jet pipe.

The characteristics of deep process, such as deep suction, high lifts, shorts time of selg absorption, running smoothly, etc.

The machine has small size, light weight, compact structure and esay installation

## FUNCTION CURVES

Model	Voltage	Power	Output	H-max	H-max	Into the caliber
HGP-600	220V/50Hz	600W	3000L/h	35m	8m	G1
HGP-800	220V/50Hz	800W	3200L/h	38m	8m	G1
